

The Cup You Choose Makes a World of Difference

Striving to be green?
Choose renewable resource or recycled content cups from Eco-Products®

Two ways to show your customers a commitment to green

Eco-Products® strives to set the standard by expanding product options to meet environmental needs for everyone. Both high-quality solutions perform as well as conventional alternatives. Now our popular World Art™ Renewable Hot Cup line includes an insulated cup that requires no sleeve to protect customer's hands from heat.

RENEWABLE RESOURCE

- Our most environmentally friendly solution
- Made from renewable resources
- Opportunity for diversion from landfills
- Compatible with zero waste programs

Available in World Art™ or GreenStripe® Design

Insulated World Art™
